

CAPTAIN SHIELD

An admixture used for concrete structures or cement plasters.

DESCRIPTION

DAVCO CAPTAIN SHIELD is a cement waterproofing compound formulated to deliver long-term protection from water ingress for more lasting structures. It is an admixture used for concrete structures or cement plasters. Backed up by DAVCO's global quality and innovation, it has "Water Guard" technology that creates protective layer that blocks water.

Its **Water Guard Technology** provides the three main benefits:

-  Lessens water absorption
-  Helps prevent steel bar corrosion
-  Lessens concrete porosity

ADVANTAGES

- ✓ Easy to use and economical
- ✓ No effect on concrete strength and setting time
- ✓ Compatible with all types of cement

STORAGE AND SHELF LIFE

Keep the unopened product in a cool, dry place. Shelf life of product if properly stored is 6 months.

WORKING CONDITION

Temperature: 10°C to 35°C

CAN BE USED FOR

-  Foundations
-  Slabs
-  Flooring
-  Beams/Columns
-  External Plastering
-  Bathrooms

MIXING PROCEDURE

As Component Waterproofing:

Mix one (1) bag of DAVCO Captain Shield Waterproofing Compound (900 grams) evenly to one bag of cement (40kg). Add this mixture to a desired proportion of sand and gravel, and mix thoroughly. Add water and mix to get desired workability and consistency.

As Surface Waterproofing:

Mix one (1) bag of DAVCO Captain Shield Waterproofing Compound (900 grams) evenly to one bag of cement (40kg). Add the desired amount of water and mix until the desired consistency is reached. Apply on the surface that will be waterproofed.

DISCLAIMER

The use of these products is beyond the manufacturer's control and liability is restricted to the replacement of material proven faulty. The manufacturer is not responsible for any loss or damage arising from incorrect usage. Specifications are subject to change without prior notice.
